UNION BASE-MODULES

EN: If needed, the M4*30mm screws can be used to fix more strongly the base and the modules from under the structure.

ES: Si es necesario, se pueden utilizar tornillos M4*30mm para fijar con más firmeza la base y los módulos desde debajo de la estructura.

FR: Si nécessaire, les vis M4*30mm peuvent être utilisées pour fixer plus solidement la base et les modules par en dessous de la structure.

IT: Se necessario, è possibile utilizzare viti M4*30mm per fissare più saldamente la base e i moduli da sotto la struttura.

DE: Falls erforderlich, können M4*30mm Schrauben verwendet werden, um die Basis und die Module von unten an der Struktur fester zu befestigen.
