ELECTRIC INSTALLATION

EN: Each wooden frame pack comes with a transformer to connect the LED light. You can connect up to 6 frames in one transformer. However, we recommend connecting 4 due to the cable length limitations.

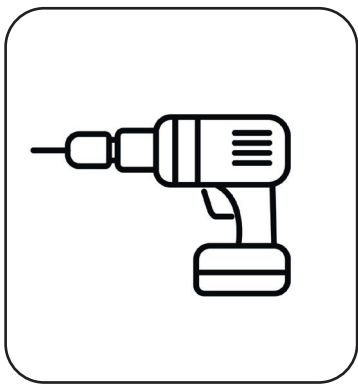

ES: Cada paquete de marco de madera incluye un transformador para conectar la luz LED. Puede conectar hasta 6 marcos a un solo transformador. Sin embargo, recomendamos conectar solo 4 debido a las limitaciones en la longitud del cable.

FR: Chaque pack de cadre en bois est fourni avec un transformateur pour brancher la lumière LED. Vous pouvez connecter jusqu'à 6 cadres à un seul transformateur. Cependant, nous recommandons de n'en connecter que 4 en raison de la longueur limitée des câbles.

IT: Ogni confezione di cornici in legno include un trasformatore per collegare la luce LED. È possibile collegare fino a 6 cornici a un singolo trasformatore. Tuttavia, si consiglia di collegarne solo 4 a causa delle limitazioni nella lunghezza del cavo.

DE: Jedes Set mit Holzrahmen enthält einen Transformator zum Anschluss der LED-Leuchte. Bis zu 6 Rahmen können an einen einzigen Transformator angeschlossen werden. Wir empfehlen jedoch, aufgrund der begrenzten Kabellänge nur 4 Rahmen anzuschließen.

WALL INSTALLATION

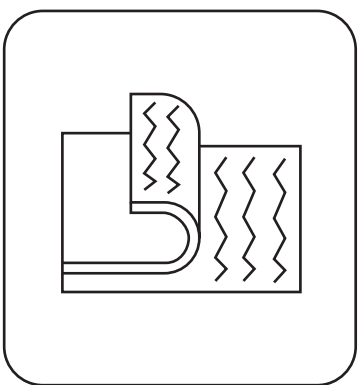

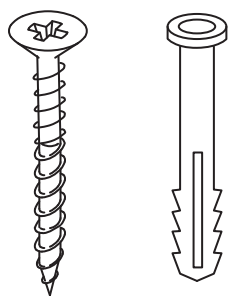

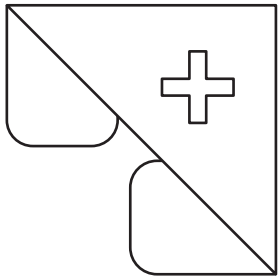

EN: To fix it to the wall, mark the position through the star-shaped holes. Then drill the wall and use the wall plugs and screws included in the kit.

ES: Para fijar a la pared, marca a través de los agujeros en forma de estrella dónde va a ir. A continuación, taladra la pared y utiliza los tacos y tornillos incluidos en el kit.

FR: Pour fixer au mur, marquez l'emplacement à travers les trous en forme d'étoile. Percez ensuite le mur et utilisez les chevilles et vis fournies dans le kit.

IT: Per fissarlo alla parete, segna la posizione attraverso i fori a forma di stella. Poi fora la parete e usa i tasselli e le viti inclusi nel kit.

DE: Zum Befestigen an der Wand markieren Sie die Position durch die sternförmigen Löcher. Bohren Sie dann die Wand und verwenden Sie die im Set enthaltenen Dübel und Schrauben.

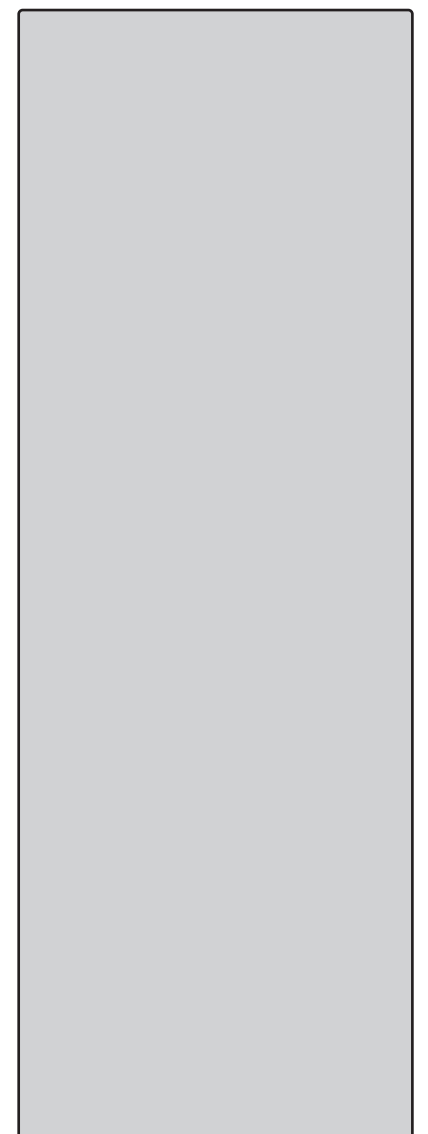

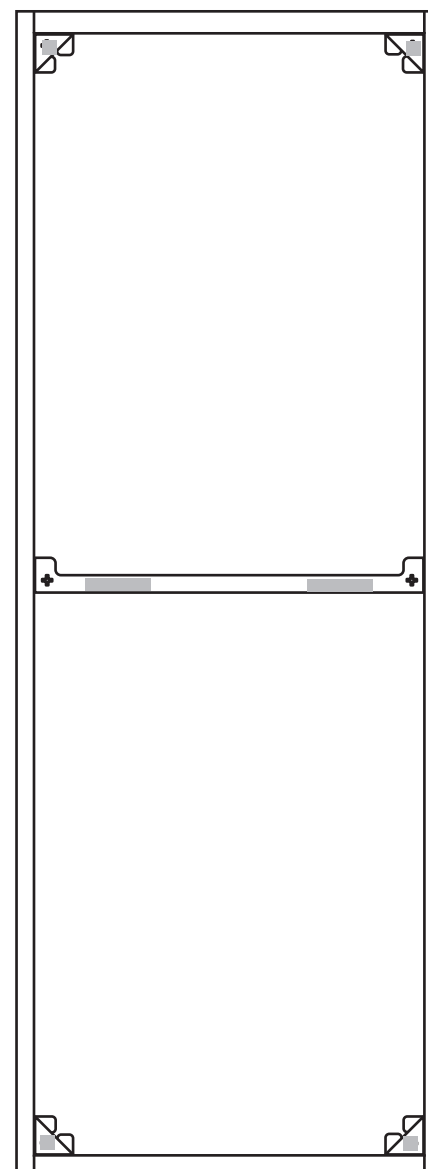

EN: To install the acoustic panel onto the frame, we recommend using Velcro (not included).

ES: Para instalar el panel acústico en el marco, recomendamos usar velcro (no incluido).

FR: Pour installer le panneau acoustique sur le cadre, nous recommandons d'utiliser du velcro (non inclus).

IT: Per installare il pannello acustico sul telaio, si consiglia di utilizzare il velcro (non incluso).

DE: Zur Befestigung des Akustikpanels am Rahmen empfehlen wir die Verwendung von Klettband (nicht im Lieferumfang enthalten).
