### ◆ FRONT PANEL/REAR PANEL

## Product Parameters

Product name	ROTARY BRUSH
Product model	F-830
Package size	360×310×185(mm)
Gross weight	4.3 kg
Speed of rotation	200-800 RPM
Rated voltage	AC 100-120V / AC 220-240V
Frequency	50/60Hz
Power	25W

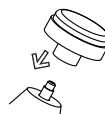

## Operation Method

Before treatment:

1. Scrub the skin surface with a damp pad.
2. Use a steamer (or hot towel) to soften the skin surface in the treatment area.
3. After cleansing and conditioning the skin, it is recommended to apply some nourishing oil to the target skin surface.

Beginning treatment:

1. Connect the power cord to power cord socket located at the rear panel.
2. Connect the Rotary Brush Handle plug to the socket located at the rear panel.
3. Select the appropriate brush based on the patient's skin type. Generally, delicate or dry skin requires a bristle brush, while rough or oily skin can use a gesso brush (see the brush diagram on the next page)
4. Hold the Rotary brush handle in hand, turn on the "On/Off" Switch, adjust the RPM control knob to adjust the speed of the rotation.

Precautions

1. Do not apply excessive pressure to the brush head while the device is operating.
2. Do not use this device with any significantly acidic or alkaline substances.
3. After operation, turn off the device and unplug the power cord.
4. Customers with allergic skin or dermatitis should not use this function.
5. Do not use this function to cleanse the skin if the capillaries in the skin are damaged.

Maintenance

1. After operation, remove the brush from the handle, soak the brush in clean water with a small amount of detergent for 5 minutes. Then, rinse it thoroughly and soak it in alcohol for half an hour.
2. The brush head must be sterilized using ultraviolet light and stored in its original packaging.

Large Bristle Brush	All Skin Types Gentle exfoliation of larger surface areas such back and chest.
Medium Bristle Brush	All Skin Types Gentle exfoliation of larger surface areas such as cheek, forehead, chin.
Small Bristle Brush	All Skin Types Gentle exfoliation of smaller surfaces such as the eye and nose area.
Large Gesso Brush	Can be used on All Skin Types. Best for thick skin. Assists in elimination of excess oil, dirt and cell build up on larger surface areas such as cheek, forehead, chin, back and chest.
Small Gesso Brush	Can be used on All Skin Types. Best for thick skin. Assists in elimination of excess oil, dirt and cell build up on smaller surfaces such as the eye and nose area.

Do not dispose of old or defective appliances in domestic garbage; this should only be done through public collection points.
