

A woman with long, dark, curly hair is standing on a sandy beach. She is wearing a white, short-sleeved, knee-length dress made of a fine mesh material. The dress has a V-neckline and a high slit on the left side. Her hair is blowing in the wind. The background is a bright, hazy beach scene with the ocean in the distance.

sunny prospects

visionary technology for a
successful future

For more than 35 years, the world's most popular sunbed brand has been delighting its customers with innovative UV and other light technologies. No matter which product you go for, it is always the right decision when you invest in the best of the best.

the future of tanning

EXPERIENCE

ELEMENTS by Ergoline

Inspired by the natural light of the sun, shaped by wind and water, our first LED solarium heralds the future of tanning.

Leave everyday life behind you, close your eyes and feel the the gentle warming rays of the sun on your skin. The golden light awakens holiday feelings and is as soothing as the rising morning sun.

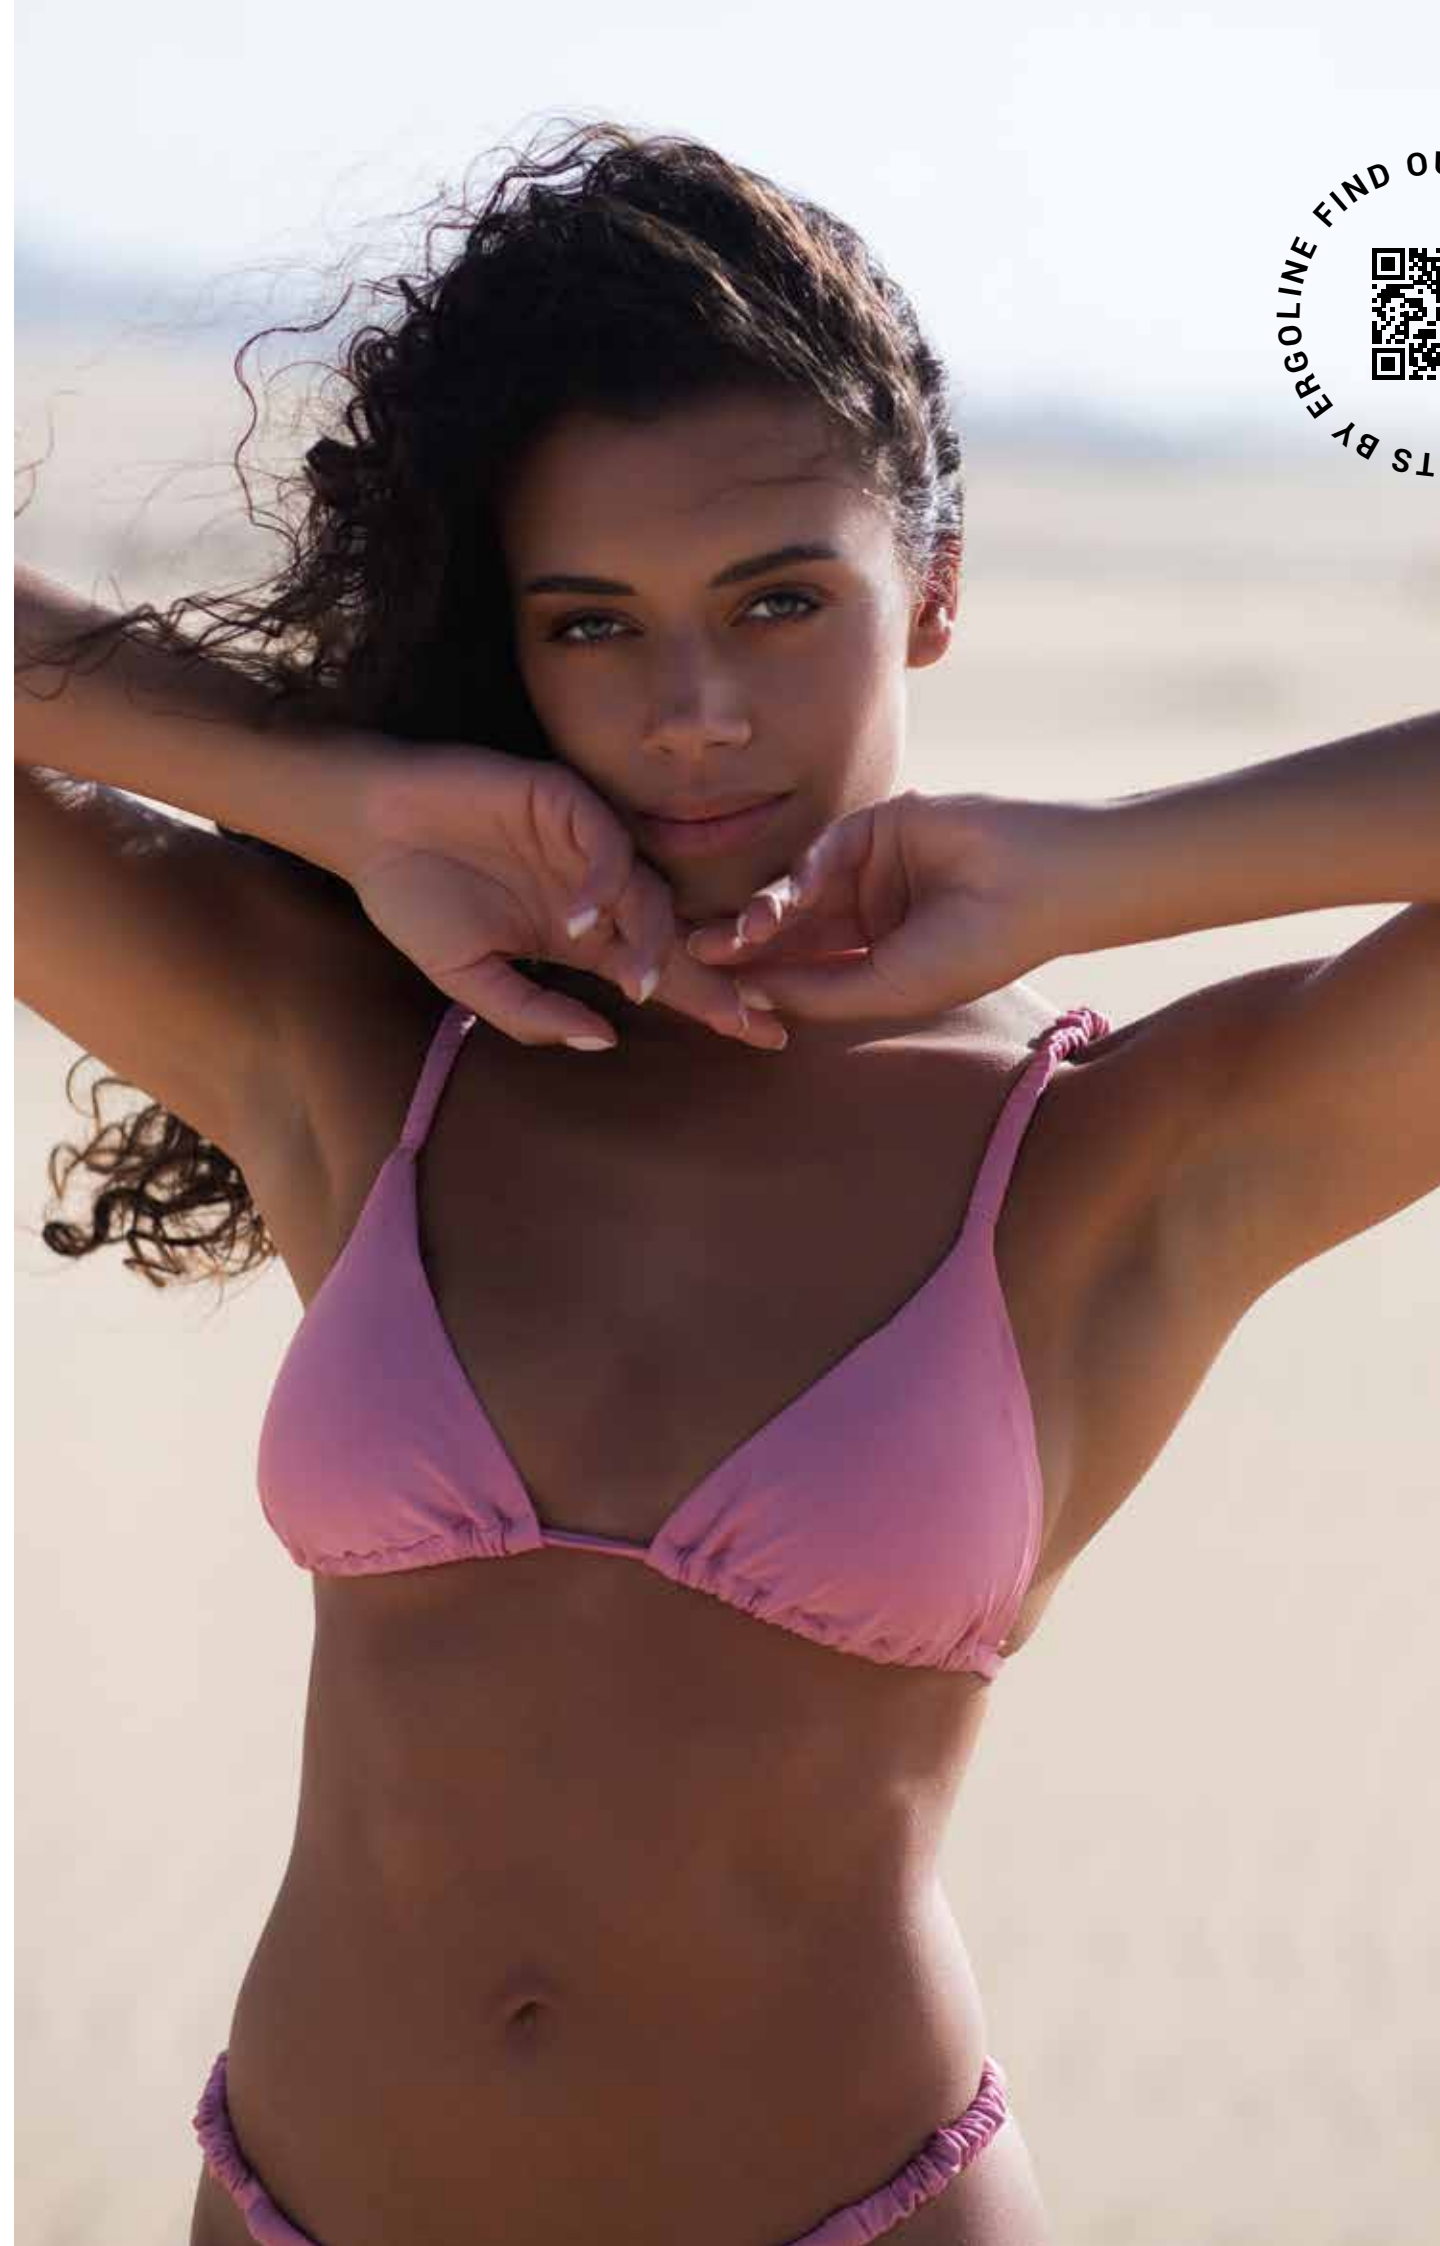

Light, fragrances and meditative soundscapes take you on a relaxing journey for the body, mind and soul. Are you ready to experience sun and light in a new way with Elements by Ergoline?

The heart of the Elements is the innovative Ergoline UV LED technology, which perfectly harmonizes UVA and UVB. For an all over, even, deep and long-lasting tan.

A brand new feature is "Intensive +": the tanning program ensures a particularly intensive, immediately visible tan and is ideal for dark, pre-tanned skin.

Elements by Ergoline offers the best tanning result ever!

SYNERGY LIGHT (GOLDEN LIGHT)

PERFECT BLENDING OF LIGHT
BEAUTIFUL, INTENSIVE TAN
EFFECTIVE SKINCARE
RELAXING FOR THE BODY, MIND AND SOUL

For an exceptionally beautiful and natural complexion, the sunlight is supplemented with golden Synergy Light, which combines the benefits of red Beauty Light and green Nature Light.

The red Beauty Light promotes collagen formation and nourishes the skin. At the same time, it improves blood circulation in the skin, resulting in an intense and beautiful tan. The green Nature Light lies in the centre of the natural light spectrum and promotes relaxation and regeneration of the body, mind and soul. It has a calming effect on the skin and perfectly complements sunlight and red Beauty Light from a photobiological perspective. Together, red and green merge to form Synergy Light - a golden light that harmoniously combines beauty, relaxation and natural regeneration.

spectra by ergoline

gentle & effective

LED technology
from the
number 1

LESS HEAT, MORE TAN

Heat is often equated with tanning but the opposite is true: heating the skin too much triggers a vascular reaction to cool the skin. Blood is drained from the skin, which leads to a poorer nutrient supply and can reduce the tanning reaction. Spectra generates precisely the light spectra required for perfect tanning results in an efficient, skin-friendly and energy-saving manner.

The homogeneous illumination of Spectra LED technology guarantees a uniformly intensive tan. For the best, gentlest and most effective tanning results ever.

At the same time, LED technology reduces power consumption and offers a significantly longer life time without any noticeable loss of performance. Declining tanning performance and "lamp changes" are therefore a thing of the past.

Prestige Bluevision

the bright side of the sun

sensor-safe tanning

The Sun Angel is the only sunbed in the world with an integrated skin sensor representing sensor-safe sunbathing, proven vitamin D formation and beautiful tanning results. For the first time with the introduction of Spectra, the UVA dose is infinitely variable and can therefore ensure optimum benefits and results for each individual user. This is maintained as a constant throughout the entire tanning session.

The tanning result is more efficient, especially for lighter skin types. The UV spectrum of the Sun Angel Spectra is supplemented with skin caring Beauty Light.

The Sun Angel Spectra is the winner of the FIBO Innovation Award 2020 in the Lifestyle, Life Balance and Wellness category.

VITAMIN D EFFICIENCY
SCIENTIFICALLY PROVEN

sunbathing without sunburn

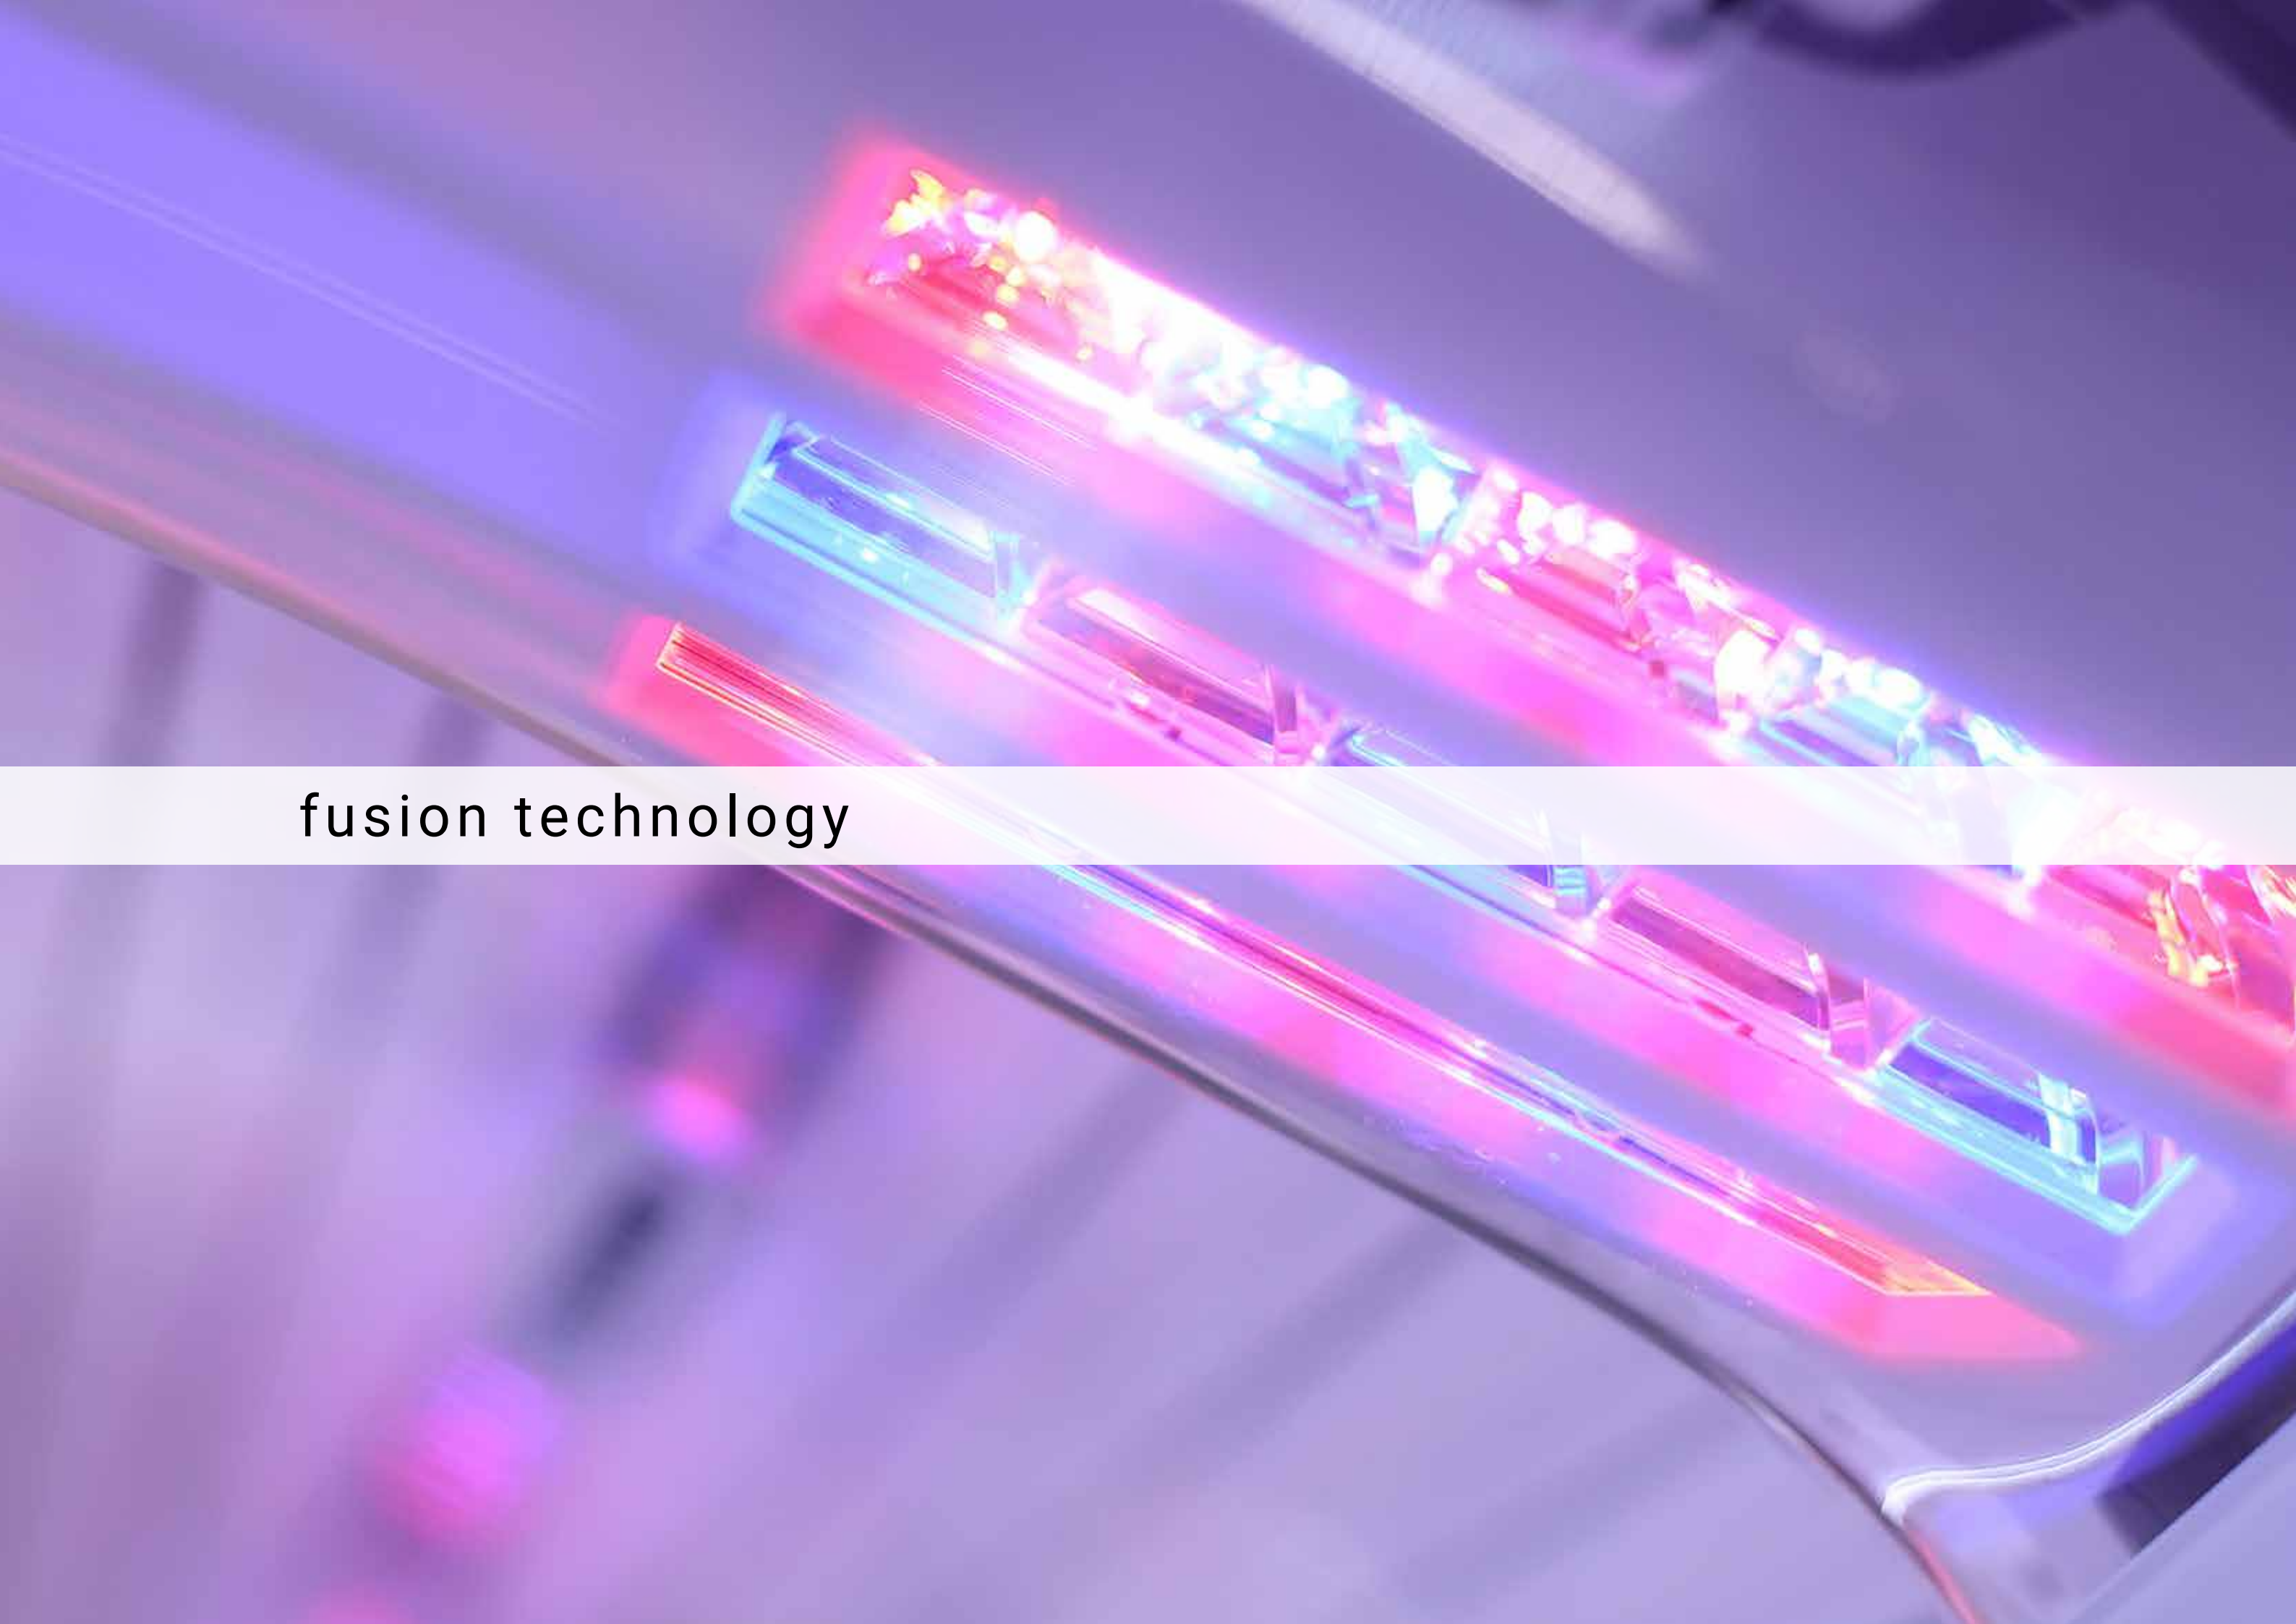

The effectiveness of the Sun Angel was tested during a Vitamin D study carried out by a respected German research institute. At the beginning of the study, the average vitamin D3 level of 90 randomly selected test individuals was approximately 14 ng/ml which is well below the recommended Vitamin D level. After four weeks, the Vitamin D levels of most Sun Angel users from the test group almost doubled compared to their original values. During the same period, the low initial value among non-Sun Angel users had fallen even further. In the "Vitamin D Sunshine" program, only the lamps with a higher UVB content are activated, resulting in the highest vitamin D3 increase.

sun angel spectra

Improved handling and particularly robust

The Sun Angel assesses how much UV each individual customer's skin can tolerate at the time of measuring. Extensive studies at an institute for skin physiology confirmed the high measuring accuracy of the Sun Angel skin sensor. Personal UV sensitivity is measured on the forehead and on the lightest (colour) part of the body. The Sun Angel calculates an individual UV dose from the measurement values. Complete analysis of the skin condition takes less than ten seconds and provides protection against sunburn with sensor control. The simple operation is supported by the voice guide and also explained on the large external display. When the sensor is not used, the Sun Angel emits only the statutory dose for an initial tanning session.

gentle on your skin

hybrid technology

The Prestige Lightvision represents intensive tanning performance with skin-nourishing Beauty Light Complete. 200 Beauty Light LEDs care for the skin, improve the tanning results by stimulating oxygen production and reduce the winter blues thanks to the bright light. With Personal Sunstyle, your customers get the tan they want at the touch of a button. Of course, the Lightvision series is always equipped with a complete comfort package that leaves nothing to be desired. Pure relaxation!

Depending on the studio philosophy, there are two facial tanning technologies to choose from: Spectra LED technology and Ultra Performance Plus.

4 SPECTRA LED FACIAL TANNERS OR 4 ULTRA PERFORMANCE PLUS FACIAL TANNERS / 200 BEAUTY LIGHT LEDs / LED SHOULDER TAN / 3-ZONE VENTILATION / SELECTABLE UV INTENSITY / CINEMATIC SOUND WITH BLUETOOTH® AND WIRELESS CHARGING / ELECTRONIC VOICE ASSISTANT E.V.A. (OPTIONAL) / FULLY EQUIPPED AS STANDARD

WOW! effect

activating light

Desirable, directly visible tan with the power of the blue Activating Light. The Bluevision Spectra and Ergoline Bluevision use the latest LED technology for in-demand tanning results.

120 Activating Light LEDs have an activating effect on the body due to the blue light which prepares the skin for tanning. This enables immediately visible and intensive pigmentation. For an immediately visible WOW! effect.

4 SPECTRA LED FACIAL TANNERS OR 4 ULTRA PERFORMANCE PLUS FACIAL TANNERS / 120 ACTIVATING LIGHT LEDs / LED SHOULDER TAN / 3-ZONE VENTILATION / SELECTABLE UV INTENSITY / CINEMATIC SOUND WITH BLUETOOTH® AND WIRELESS CHARGING / ELECTRONIC VOICE ASSISTANT E.V.A. (OPTIONAL) / FULLY EQUIPPED AS STANDARD

sunny fitness training

dynamic / smart performance

With Vibra Shape, a tanning session on the Sunrise evolves into a tanning and fitness session! Vibra Shape simulates 20,000 steps in just 10 minutes! Vibration training has a whole range of positive effects on fitness. It supports muscle generation, stimulates lipid metabolism, tightens the connective tissue and improves physical mobility and coordination. The enhanced supply of oxygen to the skin also intensifies the tanning effect. The choice of four different training programs and side-alternating vibration, which is gentle on the joints, makes Vibra Shape the ideal training partner – even for older users. Make the Sunrise a personal trainer for your customers – in a completely private environment.

save on space and energy

smart power technology

The Ergoline Essence 440 offers efficient Smart Power technology, low space requirements and great value for money. Highly efficient ballasts result in a reduced energy requirement. All this with an impressive 200 Watt tanning performance. For a perfect tan in just 15 minutes, without the typical white areas on the shoulders and back.

A woman with dark, curly hair is shown from the chest up, looking off to the side. She is wearing a red and white striped, off-the-shoulder top. The background is a blurred view of a coastal town with buildings and a body of water under a bright sky.

warranties

This price list takes effect from March 2025. It will retain validity until a new price list is published. The products offered in this price list are exclusively distributed by JK-International GmbH and their trade partners. The prices quoted are list prices and exclude statutory VAT. JK-International GmbH reserve the right to make changes to the technical execution and design, price and delivery options.

WARRANTY: JK-International GmbH guarantees the purchaser for a period of 24 months starting from the date of delivery that the goods are free from defects which would ruin or reduce their sales value. High-pressure lamps, low-pressure lamps and starters as well as base acrylics are components that are subject to a process of natural wear. Defect-related claims on part of the purchaser shall be ruled out if the product defect is the result of wear and tear. As far as the defect of the goods is based on wear of these parts, claims for defects of the buyer are excluded. The products listed must not be exported to or operated in either the USA and Canada. JK-International GmbH shall not accept any producer's liability in this case. It is expressly pointed out that any violation of this condition may subject the exporter and/or operator to high risks of liability. JK-International GmbH only assumes the legally prescribed product liability in this case.

SPARE PART SUPPLY: Top quality, timeless design and a technical service that you can rely on even after purchase make Ergoline a safe investment. That's why we aim for a long spare parts supply of 10 years after the end of production, depending on availability from third-party suppliers. For construction and electronic components, a spare parts availability of 5 or 7 years is usually assumed due to rapidly changing innovation cycles and the resulting limited availability from third-party suppliers. We always strive to ensure that suitable replacement alternatives are accessible at competitive rates whenever required.

original lamps

Only the original guarantees optimum performance.

The tanning result is only as good as the lamp in combination with the corresponding sunbed. The original light sources from the market leader are perfectly adapted to your Ergoline sunbeds. Our development department guarantees, in close collaboration with the leading lamp producers, the optimum performance of lamps in the sunbeds. In this regard, all variables, e.g. acrylic bases, distance of lamps to the body and cooling are taken into consideration to achieve the best performance. For all-round beautiful tanning results and satisfied customers.

tanning without lotion is like washing without soap

with us you will find the right cosmetic products for your business

At JK Cosmetics, we are on a mission to boost your sales and improve your product range. Our cosmetics sales team will be happy to answer any questions you may have. Whether you need personalized recommendations or just want to chat about all things tanning, we're just a phone call or email away.

The tanning cosmetics are carefully selected to give the user the perfect sun-kissed look. Whether you prefer a subtle glow or a deep, dark tan, we've got you covered. From our silky smooth lotions to the innovative active ingredients, every product is designed to give you a flawless, streak-free tan that lasts.

Here is a brief overview of available cosmetic brands with all the benefits for you and your customers.

Let's combine our forces and celebrate a succesful 2025!

devoted
creations®
SKINCARE

Founded in 2004, Devoted Creations provides the highest quality sun care products to professional salons worldwide. With over 15 diverse product lines and distributed in over 70 countries, these products are designed and formulated to meet the needs of all salon clientele. Recognized as one of the fastest growing and most renowned names in the sun care industry, Devoted Creations understands there is no one-size-fits-all sun care product, and that is why Devoted Creations goes beyond tanning – they are truly the master of high-quality skincare, cutting edge formulations and unrivalled tanning results.

NEW FORMULAR

Discover the new C2 Hybrid Cosmetic

Where tanning meets skincare innovation! Discover the new C2 collection with C2 Collagen & Color Concentrate and C2 Collagen & Color Intensifier. The intelligent formula was specially developed for use in hybrid sunbeds that combine tanning UV light with skin-caring red Beauty Light. Cutting-edge skincare meets outstanding tanning results – for radiant skin and long-lasting beauty. Experience the C2 innovations and take your tanning results to a new level!

SUNSHOT ADVANCED

Great Formular. Great Taste.

Sunshot Advanced is your secret to a radiant, beautiful tan! Are you ready to take your tanning experience to the next level? Sunshot Advanced is the ultimate tanning drink that will make you glow from the inside out! A tropical and delicious pineapple and passion fruit drink, packed with vitamins A, E, C, biotin and hydrolyzed collagen. It tastes like a short vacation in paradise and at the same time pampers your skin with everything it needs for a healthy, radiant glow.

Whether in preparation for your solarium session, for relaxing hours in the sun or simply to give your natural complexion a boost – Sunshot Advanced is your daily companion. Enjoy this beauty elixir, support the care of your skin and experience the glow you've always dreamed of!

JK COSMETICS

Body Butter™

Body Butter is a scientifically based premium skincare system with high-performance, carefully selected ingredients. The rich formula combines valuable oils, natural active ingredients and antioxidants that nourish, protect and beautify the skin – for optimal tanning results and a smooth, supple feel. Perfect care from head to toe.

TANOVATIONS™

Tanovations – innovative products that deliver! The coconut juice-based moisturizing formulas offer the latest tanning ingredients and high-quality anti-aging technologies. In large, eye-catching bottles, they combine luxurious textures with heavenly scents. A real highlight for skincare and tanning!

Skincare goes on after tanning. HEMP IQ is the perfect aftersun brand for a long-lasting, radiant tan. This portable, moisturizing skincare ensures that skin looks firm, supple and healthy – anytime, anywhere.

Peau D'Or

We believe in the power of the sun – and in science. All Peau D'Or products have been developed by a team of experts who are truly passionate about beauty and skincare. The best ingredients and regular innovations guarantee a perfect tan with added skin protection. What's more, all Peau D'Or products are paraben-free for natural care and flawless results.

Tahnee

The rich formulas of Tahnee combine natural tanning accelerators, premium bronzers and skincare complex skincare – for the tan you've always dreamed of. Tahnee stands for a fresh, colorful product line that impresses with high-quality ingredients and stunning results – at an unbeatable price. The perfect choice for those who love quality and don't want to compromise.

Please note that brands such as Devoted Creations, Peau D'Or and Tahnee are exclusive in some countries. Should you be interested in these, please send a short enquiry to info@jk-cosmetics.com and we will be happy to provide all further information on the brands we can make available to you.

number 1 for success

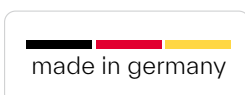

We are the JK Group

We can supply everything you need for the successful operation of your salon. The entire team will be happy to show you how you can attract new customers with attractive additional products. If you should encounter any technical problems, our Technical Customer Services team provides fast and efficient support. For more information on all JK products, request our free Lightstyle Business Magazine.

made in germany

guaranteed quality pays off

All components we use in our sunbed production are made of high quality materials, which are all tested for resistance against UV light, cleaning fluids and other potential hazards as well as potential health risks. Our state-of-the-art manufacturing technologies and qualified staff ensure exceptional high quality workmanship. Every Ergoline sunbed undergoes a variety of functional tests before it leaves the factory. We were the first sunbed manufacturer to be certified by TÜV for compliance with the EN ISO 9001 quality standard, confirming our claim to quality.

glossary sunbeds

#

2-ZONE VENTILATION

Addition to Surround Cooling Plus: ventilation can be adjusted separately for body and face.

3-ZONE VENTILATION

Addition to Surround Cooling Plus: ventilation can be adjusted separately for feet, body and face.

3D-SOUND

Sound system with two loudspeakers, sub-woofer, SD card slot and AUX connection.

A

ACTIVATING LIGHT TECHNOLOGY

Blue LEDs for activating the organism and intensifying the immediate tanning effect.

ADVANCED PERFORMANCE

Conventional power supply units, with Super, Twin or Turbo Power.

AIR CONDITION PLUS

Cooling system for the base and tanning tunnel.

AQUA FRESH

Refreshment with a fine mist in the facial and body areas.

AROMA

Range of fragrances for relaxation, including fragrance for the cubicle depending on the model.

B

BEAUTY LIGHT

UV-free, red light for skincare.

BEAUTY LIGHT LED

LED technology with UV-free, red light for skincare.

V

VIBRA SHAPE

Patented vibration plate with side-alternating vibration for vertical sunbeds.

VOICE GUIDE

Explanation of all functions by a pleasant voice.

W

WIRELESS CHARGING

With wireless charging, your smartphone charges while you enjoy your sunny getaway.

BE ONE WITH THE SUN

Ergoline

sustainability is important to us

In order to conserve natural resources, the JK Group is constantly working to optimize the energy efficiency of Ergoline sunbeds by using the latest technologies. Our research and development project "Development of a new type of LED system" was supported by the European Union from the European Regional Development Fund.
