

°CRYO Glacier

PERFORMANCE

ALL-ELECTRIC WHOLE-BODY CRYOCHAMBER

°CRYO Glacier™ is the coldest all-electric whole-body cryotherapy chamber at temperatures as low as -220°F.

°CRYO Science North America
615 Front St., Suite 103 • Whitehall, PA 18052
1-800-392-4158 • www.cryosc.com

Features

- 1 Fully Electric – achieve the same level of temperatures as with nitrogen-run devices.
- 2 Extremely Low Temperatures – the first ever electric chamber able to reach temperatures as low as -220°F.
- 3 Fully Automatic – designed to be a perfect fit to high-traffic locations.
- 4 Pre-programmed Start/Stop & Safe – the device is ready right when you need it; when treatment is over the door automatically opens.
- 5 Two-Way Communication – allows a client to freely communicate with an operator.
- 6 UVB and Mood Lighting – providing the synthesis of vitamin D3 and unforgettable sensations during treatments.

Technical Specifications

Temperature	Up to -140°C / -220°F
Cooling time	About 2 hours
Safety features	Occupancy sensor Automatic door [opening/closing] 2-way communication system Safety voice guide
Electrical specification	30kW 3-phase
Weight	Cryochamber: about 600kg Machinery: about 800 kg Drycooler: depending on solution up to 200kg
Product support	Remote service access

°CRYO Glacier is the only machine on the market that accurately measures the chamber's temperature. That accuracy ensures the client's treatment exceeds their expectations.
